

Donald YOUNGOUA

Internship – Data Analyst/Scientist, March 2025 – August 2025 (6months)

PROFILE

I've been looking for a profession to move into for a long time, and I'm now interested in Big Data and Data Analysis in particular, as data manipulation and the extraction of information from it are at the core business. The aim of this internship is therefore to improve my knowledge of the profession and perfect my skills.

PROFESSIONAL EXPERIENCE

Intern – Webmaster assistant
Invest Logistic / Douala, Cameroun

June → august 2021

Assignments completed: Maintenance of the Caurimart online platform

- Web application creation with ZohoCreator
